

COVID-19 Protocols

***** Please DO NOT come to the office without an appointment. *****

We have always been very diligent about infection control. Currently we have enhanced protocols that meet & exceed the recommendations of our public health authorities.

- There is increased screening before each appointment.
- Mask use is recommended when you enter and leave the office.
- Mandatory hand sanitizing when you enter the office.
- You will be asked to fill out your forms online rather than in the office, whenever possible.
- If you are experiencing symptoms your appointment will be rescheduled a minimum of 2 weeks later or after a negative COVID test result.
- We are limiting the number of people in the office so please come alone when possible. No extra people will be allowed in the clinical area except a parent of a young child or caregiver of a person with a disability. All others will be asked to wait outside.

The situation is evolving and may change without notice. We thank you for your cooperation and understanding.
